

INDEX

QW TS March & September 1995 - Author Index

- ANTONY, J., *paper on 'A methodology for Taguchi Design of Experiments for continuous quality improvement'*, 98
- BISSELL, A.F., *discussion on 'PCI calculations for any shape of distribution with percentile'*, 62; *discussion on 'Improved sampling of telecommunication conductor wire'*, 64
- BOWDEN, P., *paper on 'A practical implementation of business management assessment'*, 72
- BUNNEY, H.S., *paper on 'Rewards and recognition in quality improvement: what are the key issues?'*, 12
- CHAN, LING-YAU, *paper on 'Development and implementation of a comprehensive manufacturing system for a medium-sized company'*, 23
- CHANG, PAO-LONG, *discussion on 'PCI calculations for any shape of distribution with percentile'*, 63
- COULAMBIDOU, L., *paper on 'The use of quality management self-assessment in the UK: a state-of-the-art study'*, 110
- DALE, B.G., *paper on 'Rewards and recognition in quality improvement: what are the key issues?'*, 12; *paper on 'Assessor training for the European Quality Award: an examination'*, 53; *paper on 'The introduction of a quality improvement process in small companies: an examination in Trafford Park'*, 80; *paper on 'The use of quality management self-assessment in the UK: a state-of-the-art study'*, 110
- DAVIS, J., *paper on 'CCM: higher accuracy, lower costs and increased productivity?'*, 48; *paper on 'The potential effects of temperature variation in high precision measurements'*, 89
- GILCHRIST, W., *discussion on 'PCI calculations for any shape of distribution with percentile'*, 63
- HARRISON, D., *paper on 'A conceptual quality performance model'*, 44
- HAYMAN, K., *paper on 'QA and BS EN ISO 9000 education - a model for higher education in the 1990s'*, 103
- JONES, R., *paper on 'Control charts for monitoring two or more quality characteristics simultaneously'*, 119
- KAYE, M.M., *paper on 'A methodology for Taguchi Design of Experiments for continuous quality improvement'*, 98
- KING, T., *paper on 'CCM: higher accuracy, lower costs and increased productivity?'*, 48
- KOLB, F., *paper on 'Assessor training for the European Quality Award: an examination'*, 53
- LEUNG, WINSON HOI-IP, *paper on 'Development and implementation of a comprehensive manufacturing system for a medium-sized company'*, 23
- LI, WEI, *paper on 'The potential effects of temperature variation in high precision measurements'*, 89
- LINE, S., *paper on 'A conceptual model of quality system auditing'*, 4
- MARSHALL, J.D.G., *paper on 'Management standards: the route to success'*, 127
- MENG, TAY KIANG, *paper on 'A conceptual quality performance model'*, 44
- MIGUEL, P., *paper on 'CCM: higher accuracy, lower costs and increased productivity?'*, 48
- MUKHOPADHYAY, A.R., *paper on 'Controlling resistance for improved performance of telecommunication cables'*, 19; *discussion on 'Improved sampling of telecommunication conductor wire'*, 65
- PIDDINGTON, H., *paper on 'Rewards and recognition in quality improvement: what are the key issues?'*, 12
- PRAPOPOULOS, M., *paper on 'The introduction of a quality improvement process in small companies: an examination in Trafford Park'*, 80
- RAY, N., *paper on 'Controlling resistance for improved performance of telecommunication cables'*, 19
- RIMINGTON, R., *paper on 'The development of China's quality systems - historical viewpoints and practical application'*, 35
- ROGERSON, J., *paper on 'A conceptual model of quality system auditing'*, 4
- ROONEY, M., *paper on 'QA and BS EN ISO 9000 education - a model for higher education in the 1990s'*, 103
- STOUT, K., *paper on 'The potential effects of temperature variation in high precision measurements'*, 89
- VAN DER WIELE, T., *paper on 'Assessor training for the European Quality Award: an examination'*, 53
- WILLIAMS, R., *paper on 'Assessor training for the European Quality Award: an examination'*, 53

INDEX

QW TS March & September 1995 - Subject Index

- ANCOVA, nested.** *See under Resistance, control of, for improved performance of telecommunication cables*
- ANOVA, conventional v. Taguchi** 64
- ANSI B89.6.2 - 1979.** *See under Temperature variation, effects of, in high precision measurements*
- Assessment.** *See under Quality management self-assessment*
- Assessor training for EQA** 53
- Audit of quality systems, a conceptual model of** 4
- Awards.** *See under Quality awards*
- Behavioural standards** 13
- Benchmarking** 129
- BS EN ISO 9000 series.** *See under ISO 9000 series certification/registration*
- Business management assessment, a practical implementation of** 72
- Cable manufacture.** *See under Telecommunication industry*
- Chemical production, improvement opportunity scheme in** 12
- China**
 - development of quality systems in** 35
 - nature of workforce in** 32, 36, 40
- Clinical equipment designer, introduction of TQM in** 86
- Computerisation of manufacturing system for production of spectacle frames** 28
- Conceptual quality performance model** 44
- Continuous quality improvement, Taguchi Design of Experiments for** 98
- Control charts for monitoring two or more quality characteristics simultaneously** 119
- Co-ordinate measuring machines (CMMs), assessment of benefits of** 48
- Costs**
 - quality, systemigrams for** 44
 - v. benefits of use of CMMs** 49
- Crosby's quality management maturity grid** 111
- Culture change in small companies** 82
- Definition(s) of**
 - quality in a TQM context** 82
 - quality management self-assessment** 110
 - terms for temperature, humidity and environment for dimensional measurement** 90, 91, 93, 94
- Design of Experiments, Taguchi, a generic methodology for** 98
- Education in quality assurance, a model for, in HE** 103
- EFQM.** *See under European Quality Award*
- Environmental control, thermal, for precision measurement** 89, 94
- European Quality Award**
- assessor training for** 53
- model** 54, 72
- model/MBNQA model** 110, 112, 116
- See also National Quality Prize, China*
- Freight forwarding company, introduction of quality improvement process in** 83
- Heating and ventilation control system company, introduction of quality improvement process in** 85
- High precision measurements, effects of temperature variation in** 89
- Higher Education, a model for quality assurance education in** 103
- Hong Kong, spectacle frame manufacture in** 23
- 'Improvement Opportunity Scheme' - an alternative suggestion scheme** 12
- Interviewing process for business management assessment** 72
- ISO 9000 series certification/registration**
 - acceptance of, in China** 38
 - of Sino-British telecommunications company** 41
 - of small companies (brief case studies)** 83, 84, 86
 - of spectacle frame manufacturer in Hong Kong** 29
 - survey of attitudes to** 111*See also Management standards*
- Joint-venture, Sino-British, case study of** 39
- Laboratory design and procedures to minimise thermal variation** 94
- Management self-assessment.** *See under Quality management self-assessment*
- Management standards** 127
- Manufacturing system, quality-oriented, for a medium-sized company** 23
- MBNQA.** *See under European Quality Award*
- Measurement**
 - by CMM, benefits of** 48
 - effects of temperature variation on** 89
- Measures of performance.** *See under Performance measures*
- Motivation**
 - for improved quality** 33, 87
 - to contribute to suggestion scheme** 16*See also Business management assessment, a practical implementation of*
 - Culture change in small companies**
- Murphy's D-test, an alternative to** 119
- National Quality Prize, China** 36. *See also Quality awards*
